

Equipment Hire Risk Assessment

This document is a risk assessment that seeks to identify risks in terms of contracting Covid-19 while hiring club equipment as well as stating how these risks can be minimised.

Risk	Mitigation
Transfer of virus from person to person through touching hired equipment	Equipment must be booked through the club booking system
	Equipment should be left for three days in between uses between different individuals
	The hirer is responsible for cleaning the equipment before and after use. Paper towels and disinfectant will be available at the stores.
	Hand should be cleaned before and after touching equipment and before and after cleaning equipment
Catching Covid-19 while in the club stores or Avon Valley Container	Wear a face covering before entering and at all times while inside
	A maximum of 2 people to be inside at a given time
	The shutter is to be opened to increase ventilation at Tackley Road
	Where possible maintain at least a 2 meter distance from each other
